

## **THRYBERGH PARISH COUNCIL**

### **POLICY ON METAL DETECTING ON PARISH COUNCIL LAND**

#### **Permission for Use for Metal Detecting on Council Owned Land**

You must obtain permission before venturing on to land owned by Thrybergh Parish Council. This can be done by contacting the Clerk, Terry Craven. This can be done via email: [terry.craven@btinternet.com](mailto:terry.craven@btinternet.com) or by phone on: 07455 897038.

Do not undertake metal detecting activity on any Council land without permission. Permission will only be granted to persons who hold public liability insurance up to a value of £10,000,000 for any one incident. Further advice can be sourced from the National Council for Metal Detecting at [www.ncmd.co.uk](http://www.ncmd.co.uk)

On application, the customer will receive a decision (either positive or negative) within 5 working days.

#### **Excluded Council Owned Land**

It is illegal for anyone to use a metal detector on a protected area (e.g. **Scheduled Archaeological Sites, SSSI, or Ministry of Defence property**) without permission from the appropriate authority.

The Council will not authorise the use of a metal detector on any of the Councils sports pitches or formal and informal play areas

#### **Permission for Use for Metal Detecting on Council Owned Land**

Do not trespass or you will be at risk of personal prosecution. The Council cannot give permission on privately owned land as permission must be gained from the land owner. Confirmation of land ownership can be confirmed at [www.landregistryservices.com](http://www.landregistryservices.com)

## **General Information**

If you have received permission to use a metal detector please can you ensure you adhere to the following;

Respect the Country Code - Do not leave gates open, and do not damage crops or frighten animals.

Wherever the site, do not leave a mess or an unsafe surface for those who may follow. It is perfectly simple to extract a coin or other small object buried a few inches below the ground without digging a great hole. Use a suitable digging implement to cut a neat flap (do not remove the plug of earth entirely from the ground), extract the object, reinstate the grass, sand or soil carefully.

If you discover any live ammunition or any lethal object such as an unexploded bomb or mine, do not disturb it. Mark the site carefully and report the find to the local police and landowner.

Help keep Britain tidy. Safely dispose of refuse you come across.

Report all unusual historical finds to the landowner, and acquaint yourself with the current NCMD (National Council for Metal Detecting Code of Conduct) policy relating to the Voluntary Reporting of Portable Antiquities. A copy can be viewed as appendix 6 of the Treasure Act 1996 code of Practice at [www.finds.org](http://www.finds.org)

Acquaint yourself with the definitions of Treasure contained in the Treasure Act 1996 and its associated Code of Practice, making sure you understand your responsibilities.

Remember that when you are out with your metal detector you are an ambassador for your hobby.
